Q: Svn2git conversion on Xcode 8 I was trying to convert svn2git on Xcode 8. I had installed the latest version of svn2git on my Mac using brew install svn2git. The output was successful. When I performed the conversion on my project, the error was as follows - '**': error: Specified destination

directory '/Users/myName/Desktop/myProjects' does not exist. ** How can I resolve the issue. I am stuck here. Can you help me? A: Check whether you are using Mac OS X 10.11 or earlier version. In 10.11 and onwards, to create a file or directory explicitly you need to add the directory to Finder. Go to your Finder and right click on the desired directory. Click on 'Show in Finder'. By default you can see all the files and folders from your workspace.

This year marks the 60th Anniversary of Italy's first Solar Decathlon, a competition that kicked-off in October of '53 and has evolved into a major platform in environmental awareness worldwide. The year 2013
